SOLOWIN HOLDINGS (NASDAQ: AXG) Celebrates 10-Year Anniversary, Forging Compliance-First Innovation for AI + Stablecoin Ecosystem

Hong Kong, August 21, 2026 (GLOBE NEWSWIRE) — SOLOWIN HOLDINGS (Nasdaq: AXG) (together with its subsidiaries, "AXG" or the "Company"), a leading financial technology firm bridging traditional and digital assets, today announced the celebration of its tenth anniversary, marking a decade of compliance-led innovative finance.

Tracing its operating history to 2016, when it began in traditional finance, AXG has evolved into a **fully compliant dual-token digital economy platform**. Guided by its mission, **"Mobilizing Tokens 24/7,"** the Company currently operates two core business pillars: **Digital Asset Tokens**, centered on stablecoins and tokenized real-world assets, and **AI Tokens**, which brings artificial intelligence ("AI") infrastructure, agent governance and intelligent financial services into the token economy.

AXG's evolution has been defined by a disciplined approach to innovation and regulation compliance. The Company began operations in Hong Kong in 2016 and subsequently obtained license from the Hong Kong Securities and Futures Commission for regulated financial activities. The Company became listed on Nasdaq in 2023 and completed its virtual-asset business upgrade in Hong Kong in 2024. In 2025, AXG further expanded its capabilities in tokenization and AI through the acquisition of AlloyX Limited, a next-generation stablecoin infrastructure focused on tokenized money-market funds and cross-border payments. In 2026, the Company further advanced its tokenization and AI infrastructure initiatives and, through AX Coin Bahrain B.S.C. (c), a regulated stablecoin issuer subsidiary of AXG, secured a full stablecoin issuance license from the Central Bank of Bahrain and obtained the world's first Sharia-compliant stablecoin certification.

AXG's integrated ecosystem is designed to connect institutional finance with the digital asset and AI economies through an end-to-end, compliance-first operating model covering the complete token lifecycle, from stablecoin issuance, treasury management and cross-border payments to tokenization, AI-agent governance and AI-enabled payment execution. This ecosystem currently is comprised of the following platforms—**AXCOIN** supports regulated stablecoin issuance and agentic payments; **AXONE** provides global stablecoin treasury management; **FERION** enables real-world asset tokenization; **KOVAR** delivers AI infrastructure, agent identity and compliance capabilities, and a global AI Token Router; **AgentX** provides AI-driven wealth management; and **Solomon JFZ** serves as AXG's Hong Kong virtual-asset-upgraded investment banking platform.

Mr. Peter Lok, Chairman and **Chief Executive Officer** of the Company, said: "Ten years ago, we began with a clear conviction: the future of finance would require both technological innovation and trusted regulatory foundations, Today, AXG is building on that foundation as an innovative and regulated platform. Our mission, 'Mobilizing Tokens 24/7,' reflects our focus on making regulated digital value more useful, programmable and accessible across borders, institutions and intelligent systems."

Dr. Thomas Zhu, a director of the Company, commented "Compliance has been central to every stage of our development. Our progress across Hong Kong and Bahrain, including the full stablecoin issuance license in Bahrain and the world's first Sharia-compliant stablecoin certification, demonstrates how responsible innovation can create a foundation for global adoption. In our next chapter, we will continue to integrate stablecoins, tokenization and AI agents into practical, institutional-grade financial infrastructure."

About SOLOWIN HOLDINGS

SOLOWIN HOLDINGS (Nasdaq: AXG) is a leading global regulated fintech company. Established in 2016, AXG combines blockchain and artificial intelligence technologies to operate a fully compliant dual-token digital economy super platform.

Guided by the mission "Mobilizing Tokens 24/7," the Company operates two core business pillars: Digital Asset Tokens and AI Tokens. Its offerings span stablecoin issuance and payments, asset tokenization, securities trading and asset management, as well as AI-powered services including cloud infrastructure, Know-Your-Agent verification, and token router.

Through its integrated ecosystem, including AX COIN, AX ONE, FERION, Solomon JFZ , AgentX, and KOVAR, AXG empowers global institutions and investors to capitalize on the rapid growth of the dual-token economy.

Forward-Looking Statements

Certain statements in this announcement are forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements involve known and unknown risks and uncertainties and are based on the Company's current expectations and projections about future events that the Company believes may affect its financial condition, results of operations, business strategy and financial needs. The Company has attempted to identify these forward-looking statements by words or phrases such as "may," "will," "expect," "anticipate," "aim," "estimate," "intend," "plan," "believe," "is/are likely to," "potential," "continue" or other similar expressions. The Company undertakes no obligation to update or revise publicly any forward-looking statements to reflect subsequent occurring events or circumstances, or changes in its expectations that arise after the date hereof, except as may be required by law. These statements are subject to uncertainties and risks including, but not limited to, the uncertainties related to market conditions and other factors discussed in the Company's filings with the U.S. Securities and Exchange Commission (the "SEC") including the "Risk Factors" section of the Company's most recent Annual Report on Form 20-F as well as in its other reports filed or furnished from time to time with the SEC. Although the Company believes that the expectations expressed in these forward-looking statements are reasonable, it cannot assure you that such expectations will turn out to be correct, and the Company cautions investors that actual results may differ materially from the anticipated results and encourages investors to review other factors that may affect its future results in the Company's filings with the SEC, which are available for review at www.sec.gov.

Disclaimers and Other Important Information

General Information

This presentation (the "Presentation") about SOLOWIN HOLDINGS (NASDAQ: AXG) (the "Company," "AXG," or "Solowin") is dated as of August 2026. It is information in a summary form and does not purport to be complete. The data contained herein is derived from internal records and publicly available sources. This Presentation is provided for informational purposes only and does not constitute either advice or a recommendation regarding any securities of the Company.

No person has been authorized to give any information or make any representations other than those contained in this Presentation and, if given and/or made, such information or representations must not be relied upon as having been so authorized. The contents of this Presentation are not to be construed as legal, financial or tax advice.

This Presentation and any oral statements made in connection with this Presentation do not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the securities of AXG in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction. Any investment decision should be based solely on the information contained in the Company's official SEC filings and offering documents.

This Presentation is subject to material updating, revision and further amendment, and is qualified entirely by reference to the Company's publicly disclosed information, including the Company's most recent Annual Report on Form 20-F as well as its other reports filed or furnished from time to time with the U.S. Securities and Exchange Commission (the "SEC"), which are available for review at www.sec.gov.

Forward-Looking Statements

This Presentation contains "forward-looking statements" that involve substantial risks and uncertainties. All statements other than statements of historical facts contained in this Presentation, including statements regarding the Company's future results of operations and financial position, strategy and plans, product development and commercialization, partnerships, regulatory approvals, and expectations for future operations, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company has attempted to identify forward-looking statements by terminology including "anticipates," "believes," "can," "continue," "could," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "should," or "will" or the negative of these terms or other comparable terminology.

The Company's actual results may differ materially from those discussed herein, or implied by, these forward-looking statements. Any forward-looking statements contained in this Presentation are only estimates or predictions of future events based on information currently available to the Company's management and management" current beliefs about the potential outcome of future events. Whether these future events will occur as management anticipates, whether the Company will achieve its business objectives, and whether its revenues, operating results, or financial condition will improve in future periods are subject to numerous risks. The Company undertakes no obligation to publicly update or revise any forward-looking statements, other than asrequired by applicable law.

Industry and Market Data

Industry and market data used in this Presentation has been obtained from publicly available government and third-party industry publications and sources, including without limitation reports from Citi, Finastra, Forbes and Standard Chartered. The Company has not independently verified the data obtained from these sources and cannot assure you of the data's accuracy or completeness. This data is subject to change and cannot always be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey of market or industry data. Projections and forecasts contained in third-party sources cited herein do not represent the Company's addressable market or expected revenue. You are cautioned not to give undue weight to such industry and market data.

Non-Standard Operating Metrics

This Presentation contains operating metrics, including Total Payment Volume, Total Value Tokenized, Assets under Administration, and Total Trading Volume of Stablecoins and Fiat Currencies. These metrics are operating indicators and are not measures of revenue, profitability or financial condition. Payment volume and trading volume do not represent revenue; assets under administration are not assets owned by the Company; and value tokenized does not represent the market value, liquidity or future performance of the underlying assets. These metrics are not directly comparable across reporting entities and do not assure that the Company will achieve scale and profitability of its products and platforms.

There are a significant number of factors that could cause actual results to differ materially from statements made in this Presentation, including:

- the Company's limited operating history in its new Digital Asset Tokens and AI Tokens business lines and the early-stage nature of its stablecoin, RWA tokenization, and AI infrastructure businesses;
- the Company's stablecoin issuance, treasury and payment businesses are subject to rapidly evolving and fragmented regulation in multiple jurisdictions, and any failure to obtain or maintain required licenses could require the Company to curtail or cease material portions of its business;
- AXCOIN and any other stablecoins the Company issues may fail to maintain their intended value or redemption functionality, which could result in customer losses, accelerated redemptions, regulatory scrutiny and reputational harm;
- tokenized real-world assets issued, distributed or serviced through the Company's platforms may be treated as securities or other regulated instruments, which could subject the Company to significant regulatory, liability and operational risks;
- the market for tokenized real-world assets remains nascent, and limited adoption, liquidity, interoperability or legal enforceability could materially limit the growth of the Company's FERION platform;
- the Company's AI infrastructure, AI model aggregation and AI agent governance businesses are subject to emerging regulation and significant technology, operational and reputational risks;
- the Company derived a substantial portion of revenue from a small number of key clients;
- the Company's strategy depends in part on partnerships, pilots, memoranda of understanding and third-party distribution arrangements that may not result in binding agreements, commercial adoption or material revenue;
- the Company faces significant competition from established financial institutions, payment networks, stablecoin issuers, digital asset platforms, AI infrastructure providers and other technology companies, many of which have greater resources;
- the Company's increased focus on cross-border stablecoin payments and digital asset services heightens exposure to anti-money laundering, sanctions, fraud, terrorist financing and capital flow compliance risks;
- the Company's platforms rely on smart contracts, public blockchains, cross-chain infrastructure, digital wallets and private-key management, which may be vulnerable to exploits, failures or disruptions beyond the Company's control;
- the Company's business depends on the continued efforts of its senior management and key executives, and the loss of key personnel could severely disrupt its operations;
- a substantial portion of the Company's operations are in Hong Kong, and PRC legal, regulatory and political risks may affect its operations;
- the integration of AlloyX and other acquired or newly formed businesses may be more difficult, costly or time-consuming than expected, and we may fail to realize the anticipated benefits of these transactions;

and other risks including, but not limited to, those discussed or referred to in the Company's disclosure documents filed with the SEC, including the "Risk Factors" section of the Company's most recent Annual Report on Form 20-F, as well as in its other reports filed or furnished with the SEC.

You should read these factors and the other cautionary statements made in this Presentation. If one or more of these factors materialize, or if any underlying assumptions prove incorrect, the Company's actual results, performance or achievements may vary materially from any future results, performance or achievements expressed or implied by these forward-looking statements. The forward-looking statements included in this Presentation are made as of the date of this Presentation and AXG undertakes no obligation to publicly update or revise any forward-looking statements, other than as required by applicable law.

Mobilizing Tokens 24/7

SOLOWIN HOLDINGS (NASDAQ: AXG) is a leading global regulated financial technology company that bridges traditional finance with the digital asset and artificial intelligence ("AI") economies.

Tracing an operating history to 2016 through our Hong Kong subsidiary Solomon JFZ, we combine blockchain and artificial intelligence technologies to operate a fully compliant, dual-token digital economy platform.

Guided by our mission, "Mobilizing Tokens 24/7," we focus on tokenisation and operate two core business pillars: **Digital Asset Tokens and AI Tokens**. Our offerings, delivered principally through our subsidiaries — including Solomon JFZ, Solomon Wealth, AlloyX Group, Kovar, and AX Coin Bahrain — span regulated stablecoin issuance and payments, asset tokenisation, securities trading and asset management, and AI-powered enterprise services.
